

Ubuntu Insurance Ltd

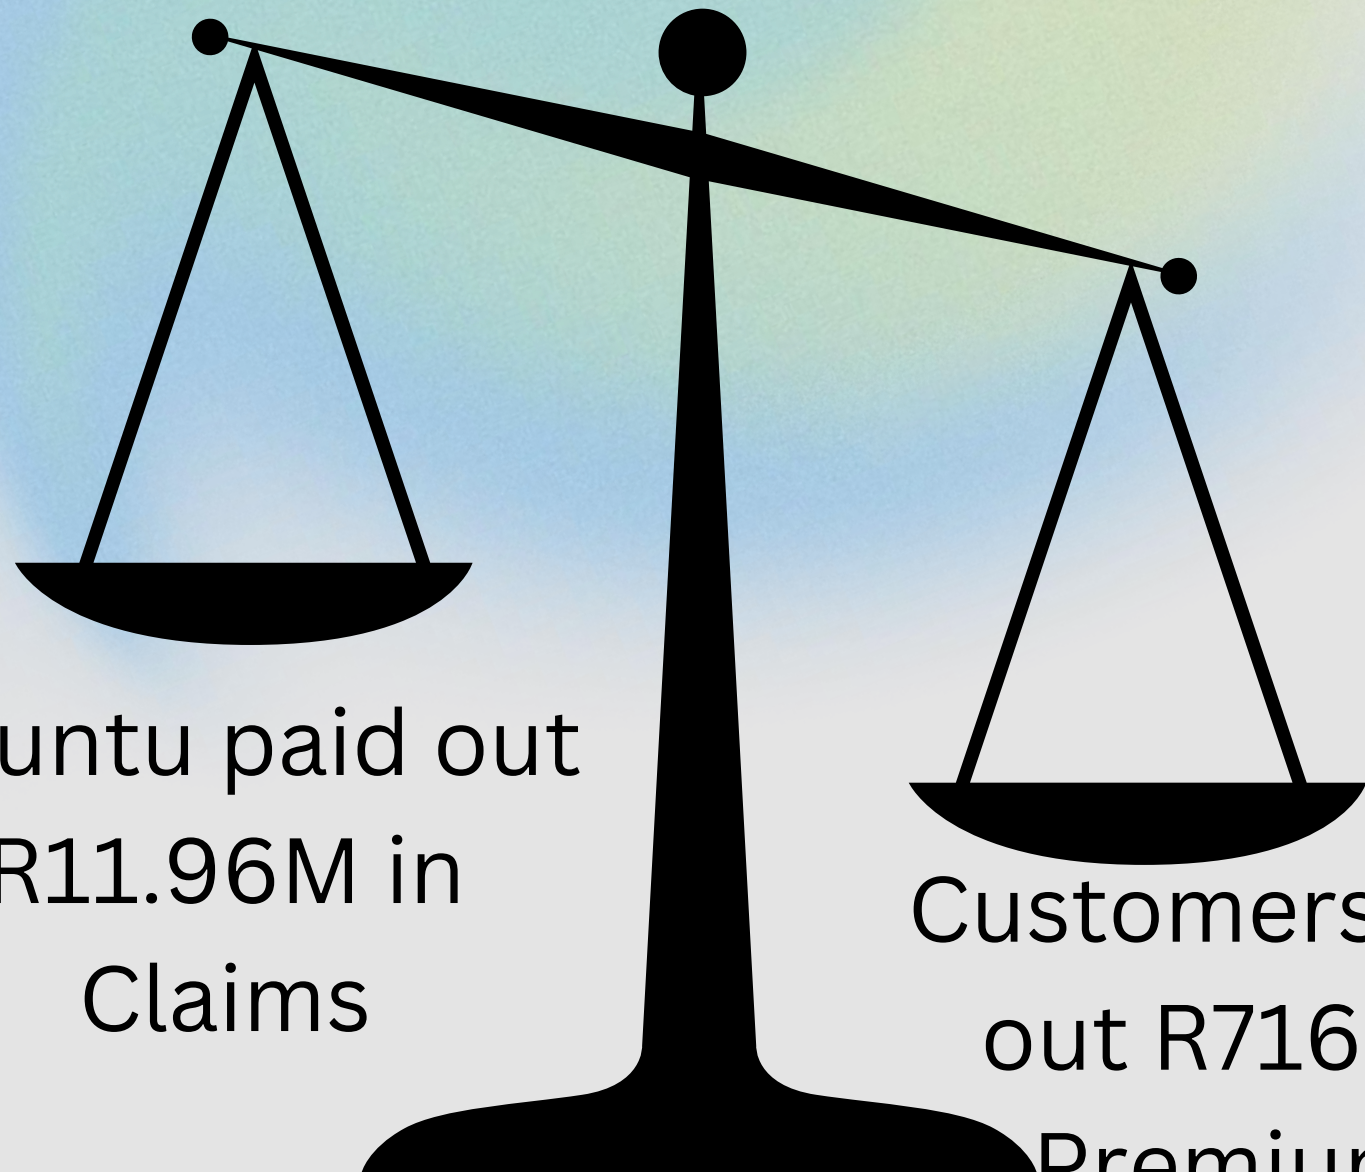

Customer Risk & Claims Analysis

Presented By : Lelethu Bala, Junior Data Analyst

April 2026

Ubuntu Loses R535K Per Month

Ubuntu paid out
R11.96M in
Claims

Customers paid
out R716K in
Premiums

From January 2024 to September 2025 — 21 months — Ubuntu lost 11.24 million rand

For every R1 a customer gives Ubuntu, we have to pay back R16,70c

3 places where this money is going, and recommend exactly 3 things we can do to save thousands of rands per month

Data Overview

January 2024 to September 2025.

Claims paid

Premiums collected

527 claims in total

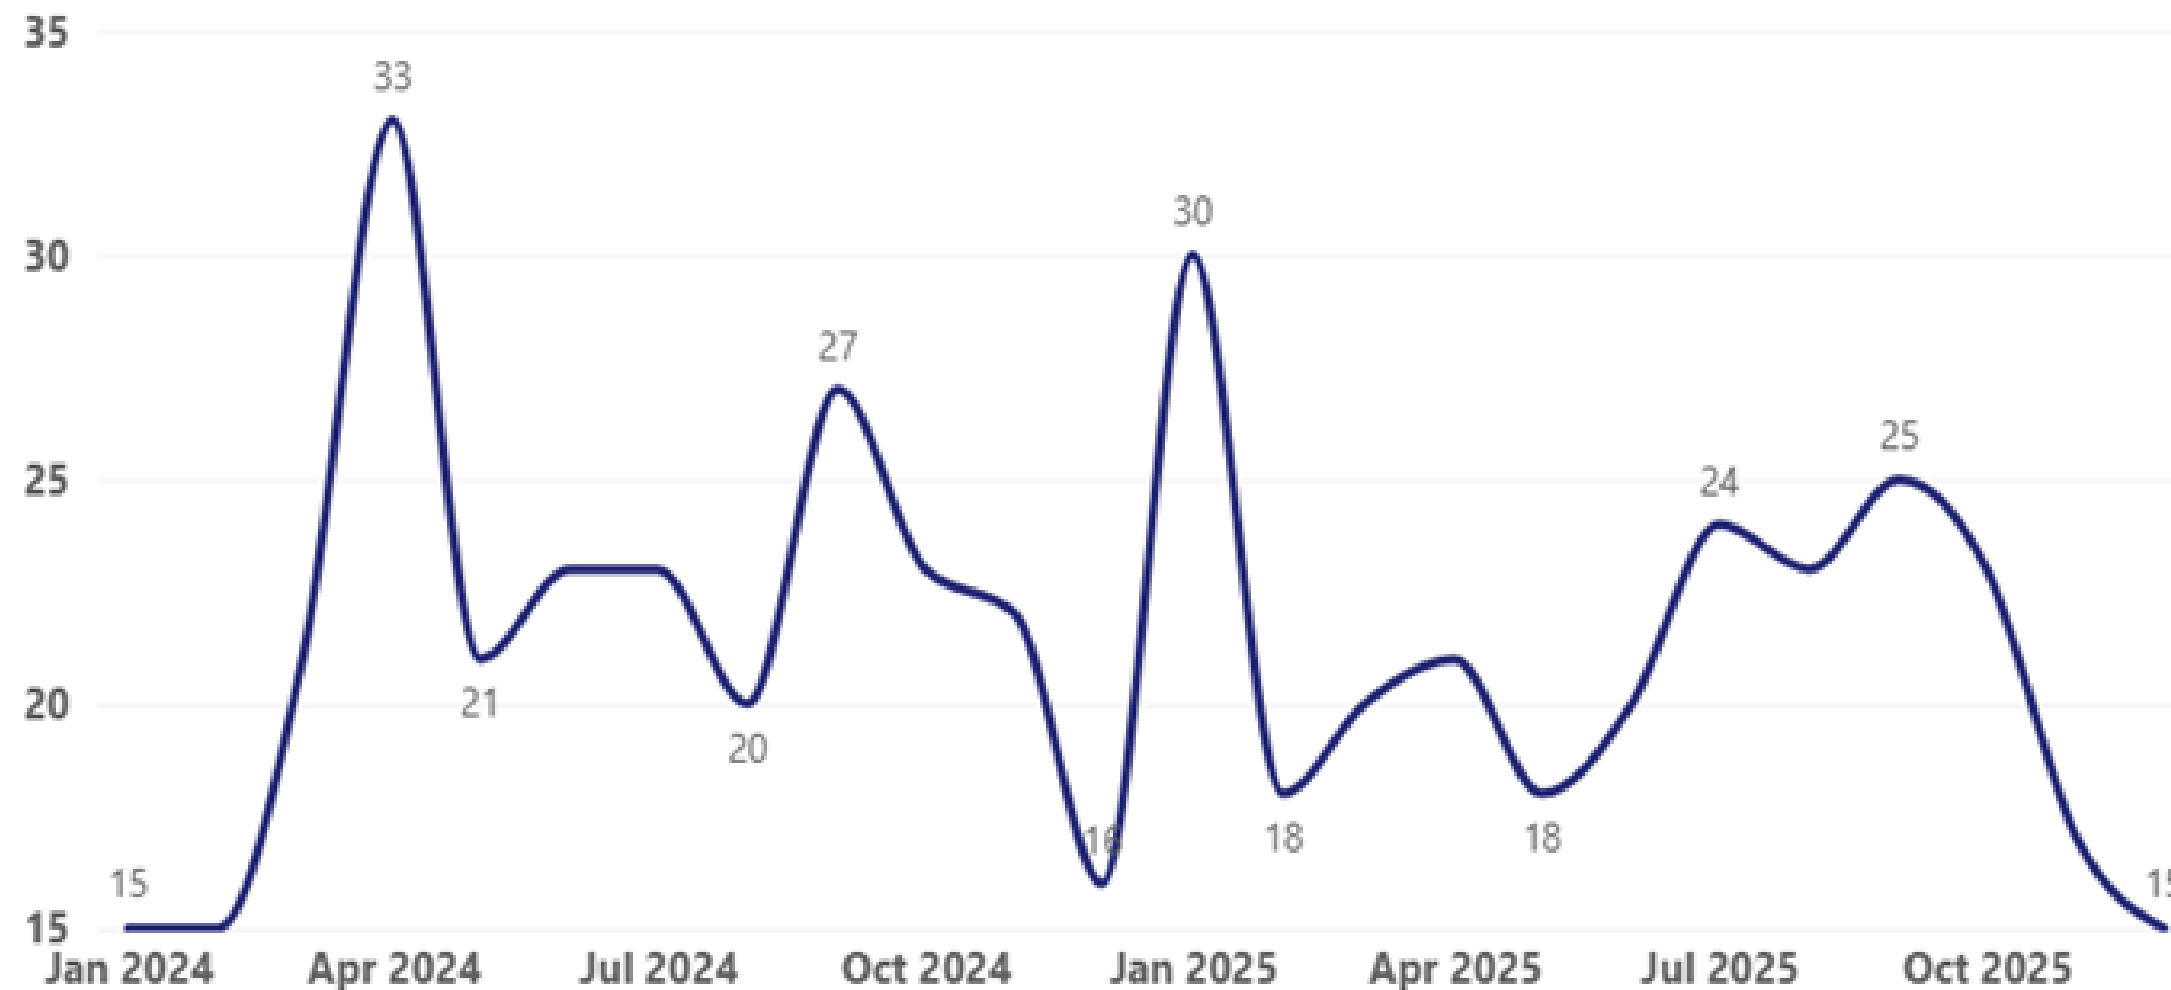

All provinces, all policy types, all customers

Source: Claims & Finance System

Claims Analysis

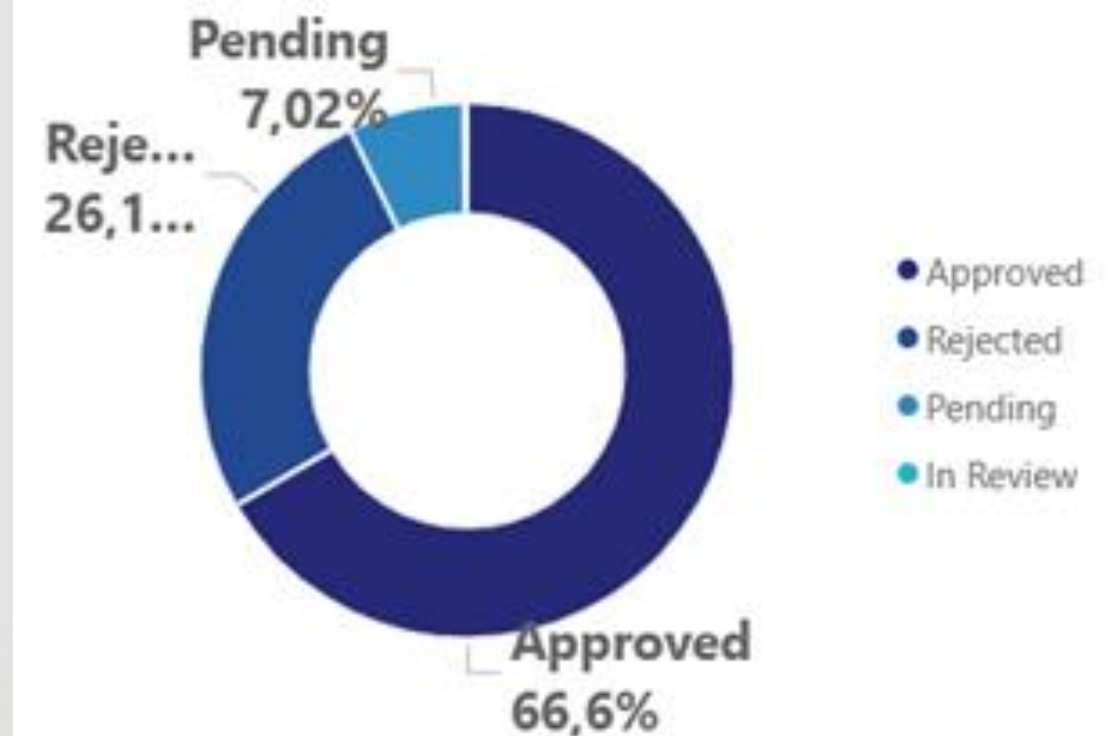

Unpredictable & Slow

Claims Trend Over Time

Claim costs are unpredictable
February 2024 – R240K in claims.
April 2024 – R764K in claims
We cannot plan cash flow

Claim Status Breakdown

Operations are slow
7% claims are stuck in 'pending' — that's R839K
26% of claims get rejected – Saves money
– Customer dissatisfaction cancel their policies

Claims Analysis

Insight 1: Life & Funeral = R5.38M of Our Losses

This table shows all 527 claims we analyzed, split by product type.

Policy_Type	Total Claims	Total Claim Amount	Total Premium Amount	Profit	Profit Margin %
Life	103	R4 592 462,59	R97 666,59	-R4 494 796,00	-46,02
Auto	135	R2 454 230,42	R174 949,95	-R2 279 280,47	-13,03
Home	94	R2 354 806,20	R143 174,03	-R2 211 632,17	-15,45
Health	132	R1 687 306,86	R278 151,23	-R1 409 155,63	-5,07
Funeral	63	R867 455,40	R22 905,03	-R844 550,37	-36,87
Total	527	R11 956 261,47	R716 846,83	-R11 239 414,64	-15,68

If we divide the Total Claim Amount by the Total Premium Amount :

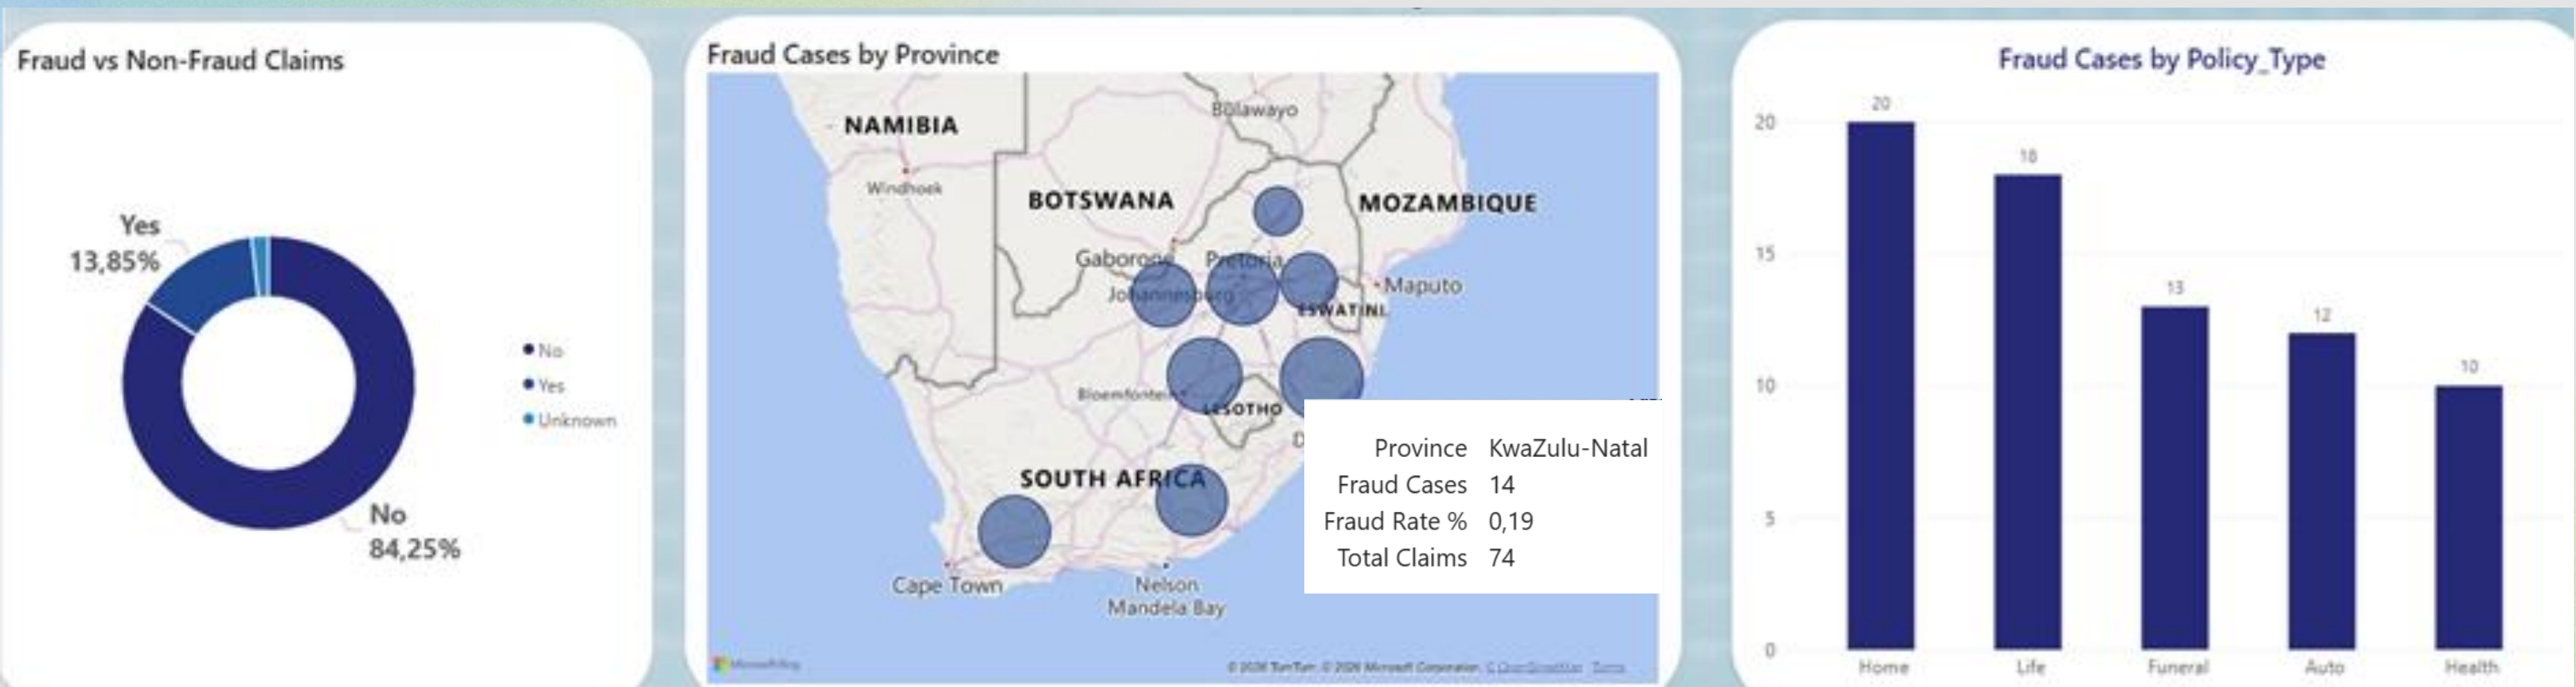

For Life Insurance: For every R1 we collect, we pay back R47

For Funeral Insurance: For every R1 we collect, we pay back R37

Life and Funeral alone accounted for 48% of all our losses.

Fraud Analysis

Insight 2: Fraud Costs Ubuntu R2.18M - 73 Fake Claims

Of all 527 claims, 73 were fraudulent(13.85%)
R2.18M in fake payouts.

In KZN, 19 percent of all claims are fraudulent.
Followed by Gauteng and Free state with 16 %

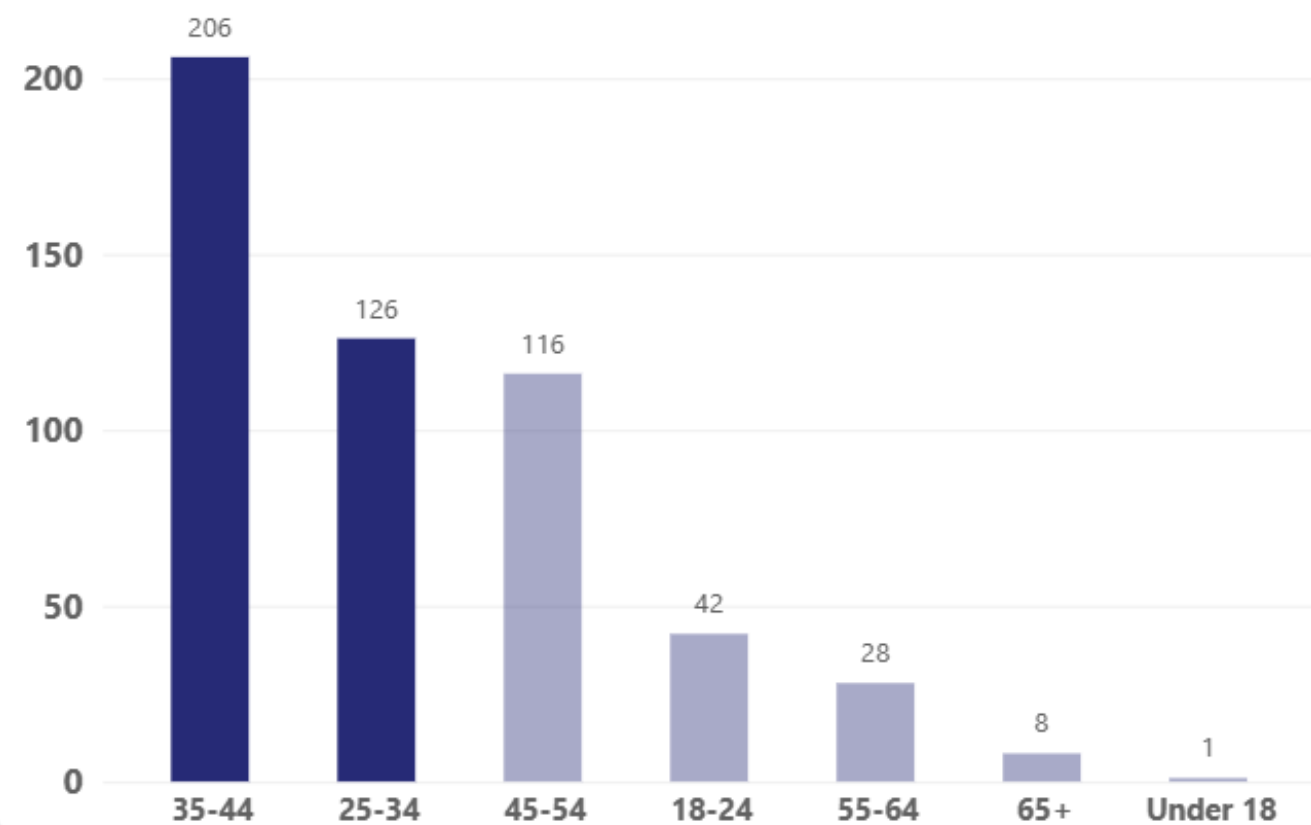

Home Insurance has the highest fraud cases(20)
Life is next with 18 fraud cases
13 out of 20 fraudulent claims for Home insurance
are from KZN,.

Home claims in KZN → No ID checks & property
inspections

Customer Analysis

Insight 3: Ages 25-44 + Males Drive Most Claims

Claims by Age Group

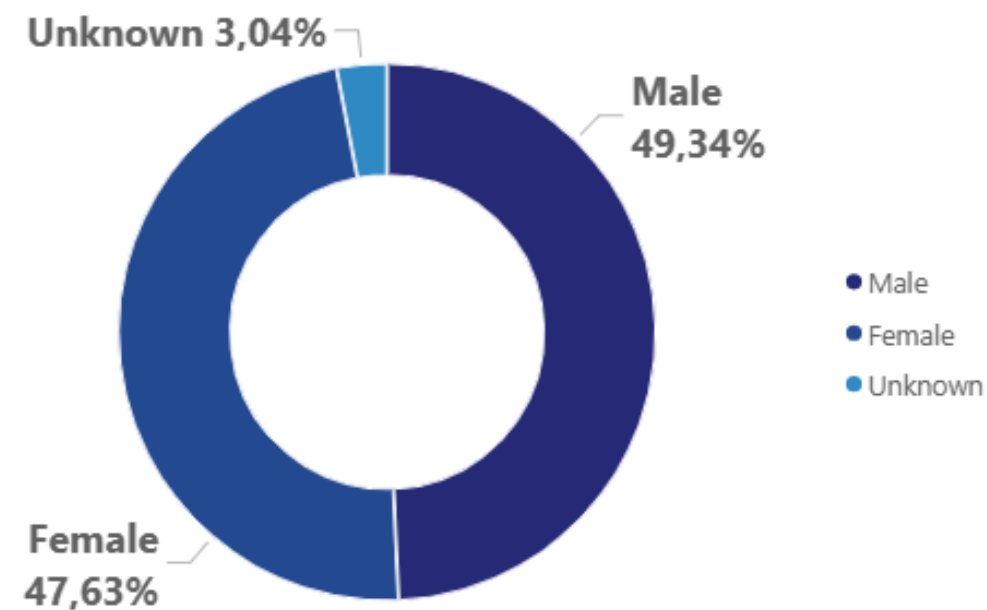

The age group 25 to 44 has the most claims

This group alone is responsible for 63 %losses.

That equals R 7.55M

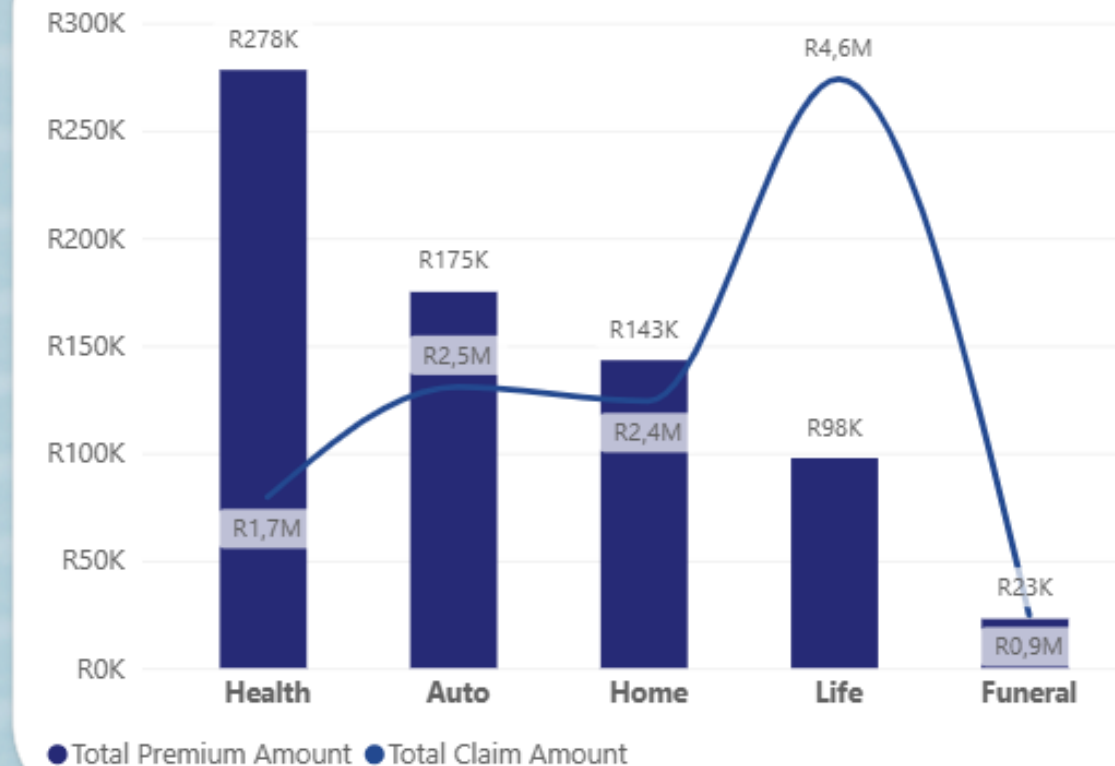

Claims by Gender

49% of all claims come from male customers.

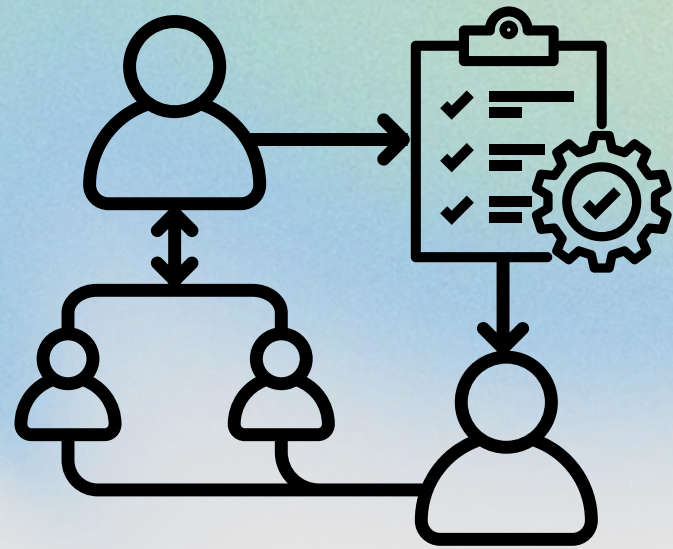

Fraud analysis: Males have the highest fraud rate

Total Premium vs Total Claims by Policy Type

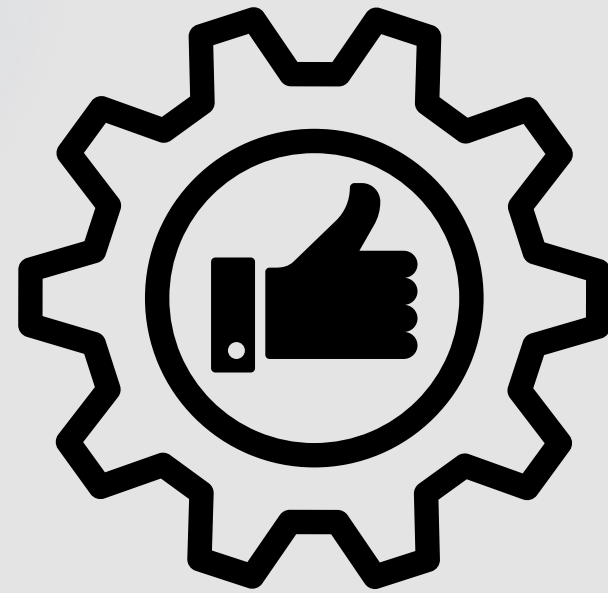

Blue bars = Total claims we paid.
Line Chart = Total premium we collected
This means we pay out far more than we collect.

3 Actions to Turn Ubuntu Profitable

RECOMMENDATION 1: PAUSE + REDESIGN LIFE & FUNERAL

Save: R249K/month
We pay R47 in claims for every R1 premium on Life.
Relaunch a profitable productS

RECOMMENDATION 2: Improve ID checks and Home Inspections

71% of all fraud comes from KZN Home

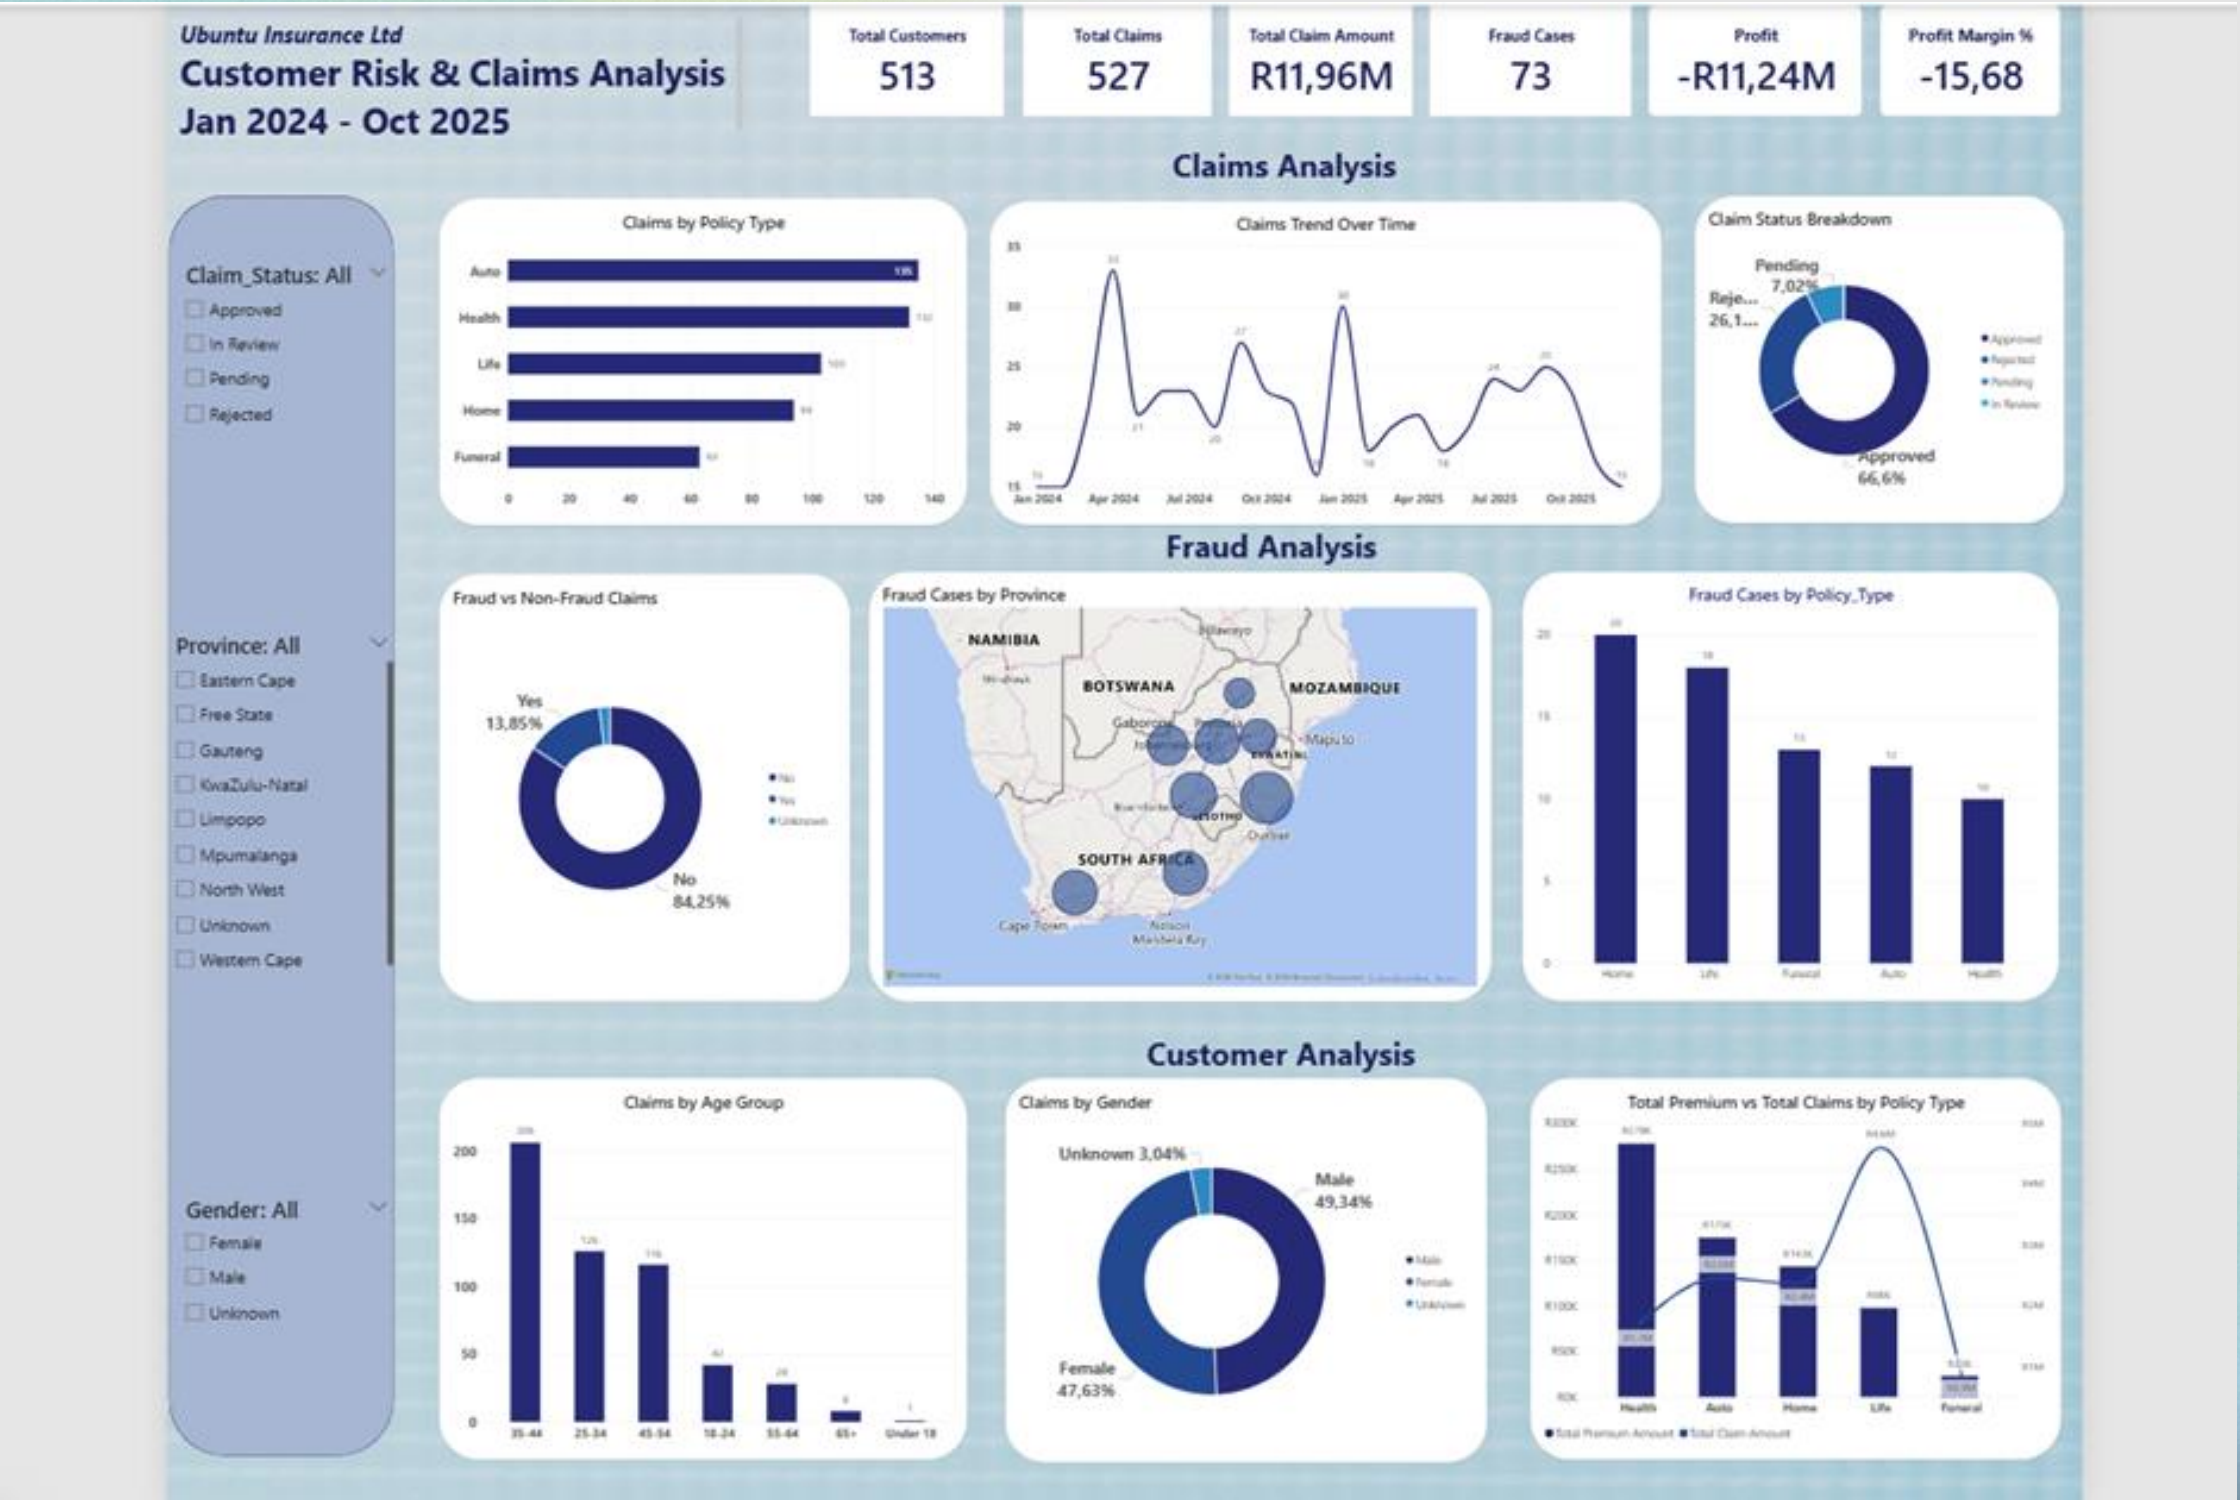

If we add ID verification and a property photo before we pay, we stop most fake claims. This saves 71 thousand rand per month.

Recommendation 3: Reprice for ages 25 to 44

53 % of all losses —R 7.55M
They also have the highest fraud rate
